October 5, 2020

Dear Parents,

We have spent time this month looking at our fundraising needs for this year. Obviously field trips are not possible this year but we do have a few things we'd like to be able to purchase to enhance student learning and safety. Funds raised will be used to purchase outside furniture for student use, additional sports equipment and textbooks to limit student sharing and technology upgrades for the school.

Our fundraisers will be very limited this year and we do not have the expectation that every family will participate in every fundraiser (if we do more than one). At this point we only have plans to do Mom's Pantry (the catalogues will be sent home today) and all orders will be done online. We've had some interest in Purdy's Chocolates and Treen's Meat Orders but we haven't made any decisions on these yet. If you have an opinion either way, please let us know.

We appreciate your support. If you have any questions, please let us know.

Sincerely,

Debbie Thomas & Karen Smith
